

REDUCE DOWNTIME

FLANGE WELD TEST TOOL

SAVE TIME & MONEY

- **Fast and simple** installation and testing
- Use with a **range** of pipe schedules
- Test **only** the weld to the flange not the whole pipeline
- **Eliminate** need for Full-system hydrotesting

PATENTED TECHNOLOGY

- **Lightest** weight on the market
- Tests **various types** of flange weld connections, including weld-neck, slip-on, and lap-joint
- **Minimal** water use, less waste
- **Multi-schedule**

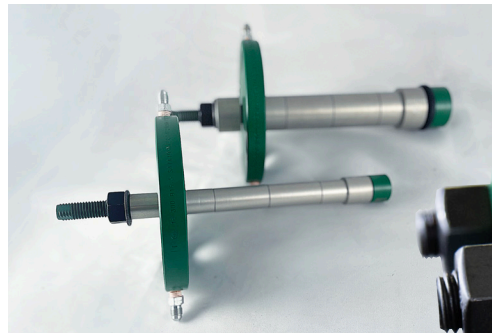

FEATURES

- **Self-Centering** and reliable
- Ability to **adjust length** of testing area by moving spacers
- **Easy** to use. Minimal required training
- **Test the axial force** on the flange as well as the weld

FLANGE WELD TEST TOOL

- Reduce the expense & downtime delays
- Test only the flange weld, not the whole pipeline
- Eliminate the need for Full-system hydrotesting

PATENTED TECHNOLOGY

- Fast and simple installation and testing
- Tests various types of flange weld connections, including weld-neck, slip-on, and lap-joint
- Suitable for use with a range of pipe schedules
- Minimal water use, less waste
- Eliminates the need for a full system test
- Minimal Training
- Time Saving
- Cost Saving
- Various spacers to modify testing area
